

## ScanGenius Integrator

for Microsoft Dynamics Retail Management System

The **ScanGenius Integrator** allows retailers to connect Microsoft Dynamics Retail Management System (**RMS**) to ScanGenius, the multi-vendor ordering system from Living Naturally, allowing them to receive product updates, submit purchase orders and receive invoices electronically. This tool will save time, reduce errors and improve the overall business performance.

### Features:

- Import new product information directly from ScanGenius software.
- Update cost, description and prices automatically based on selected supplier.
- Submit purchase orders created on **RMS** electronically to your suppliers through ScanGenius ordering system.
- Receive invoices in **RMS** electronically from your suppliers.
